

The MATRIX-System

Form Adapting Support Technique

X-Support XL

X-Support XS / XL

Suitable for different work piece contours and heavy loads.

Like all MATRIX System products, the individual parts of the X Support XS as well as the XL are compatible with each other and can be constructed interchangeably in all possible ways.

Arrange the work piece, fix the pins in seconds you have a part-specific fixture.

31 to 67 pins with a diameter of 6 mm safely support the work piece on a surface of up to 50 x 100 mm.

Up to 1.000 kg.
