

## X-TABLE

ORDER NUMBER: 0400.1200 ODER 0400.1500

### MATRIX X-TABLE profile system

**The X-TABLE is a roller table that is matched to the BLUE CLAMP series and its angle of incline can be variably adjusted.**

It is available in two sizes:  
 1200 x 750 mm H 910 mm  
 1500 x 750 mm H 910 mm

The table can be set up comfortably in horizontal position and then inclined for an optimum measuring position (vehicle position **1** and **2**). Lifting rollers are used to lift the table from the leveling feet and move it easily.
